SUMMARY

Motivated and self-taught Frontend Developer with a strong foundation in HTML, CSS, JavaScript,, and modern frameworks like React and Tailwind. Joined the Information Technology Institute (ITI - Intensive Code Program), where I contributed to real-world web development projects and collaborated with cross-functional teams. Passionate about building clean, responsive user interfaces and continuously expanding my skills. Seeking an entry-level frontend role where I can apply my technical knowledge and grow within a collaborative team.
